

United Way of Greater Atlanta

Over the last few weeks, we have watched the impact of the coronavirus become a global crisis and one that is impacting thousands in Metro Atlanta. As a result, [United Way of Greater Atlanta](#) is partnering with the [Community Foundation for Greater Atlanta](#) to launch the [Greater Atlanta COVID-19 Response and Recovery Fund](#) to support those individuals and families most impacted by the pandemic. The coronavirus isn't just a health crisis. It's an economic crisis.

The Greater Atlanta COVID-19 Response and Recovery Fund will provide immediate support to those most vulnerable to the economic and health-related impacts caused by the coronavirus pandemic with a focus on supporting:

- Families living in areas of [low and very low Child Well-Being](#)
- Seniors (60+)
- Families with children receiving free and reduced lunch
- Families in need of childcare
- Hourly, low wage workers, and front-line staff

Sincerely,

Sheryl Taylor
